Art Unit: 2193

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4 are, drawn to an arithmetic circuit having a full-adder, classified in class 708, subclass 768.
 - II. Claims 5-7 are, drawn to a multiplier circuit, classified in class 708, subclass 625.
 - III. Claims 8-12 are, drawn to a multiplier triple-expansion non-Booth circuit, classified in class 708, subclass 620.
 - IV. Claims 13-19 are, drawn to a multiplier circuit utilizing 4-b 1-hot encoded signals ..., classified in class 708, subclass 629.
 - V. Claims 20-27 are, drawn to a small parallel multiplier circuit utilizing, classified in class 708, subclass 620.
 - VI. Claims 28-34 are, drawn to a method of optimizing only one column of a plurality of CSA ..., classified in class 708, subclass 620.

2. The inventions are distinct, each from the other because:

Each group of claims is directed to a separate invention. It is noted that the groups maybe belong to a system. However, this is not sufficient to prevent a restriction requirement. It is also noted that the invention of Group III, V and VI although are classified in the same class and subclass, they are disclosed as different combinations which are not connected in design, operation or effect. These combinations are independent if it can be shown that (1) they are not disclosed as capable of use together (2) they have different modes of operation, (3) they have different functions, and (4) they have different effects. (MPEP 806.04, MPEP 808.01).

Art Unit: 2193

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tan V. Mai whose telephone number is (571) 272-3726. The examiner can normally be reached on Mon-Wed and Fri. from 9:30am to 2:30pm.
